WOJCIECH GABRYŚ

Fullstack Developer & UI/UX Designer

I am one of those interdisciplinary hybrids, who wear multiple hats and own all facets of website & web app creation process.

For more than 15 years I have been involved in consulting, planning features, building prototypes, designing interfaces, implementing and testing both web and mobile solutions.

During this time, I have delivered successful projects for well renowned clients, such as: **Agora, Amgen, AstraZeneca, BASF, Bayer, Bristol-Myers Squibb, GlaxoSmithKline, Merck&Co, Nais, Novartis, Onet.pl, Pfizer, Roche, Sanofi, Santander, Teatr Polski, Teva, Toyota, Urvin Compliance and USP Zdrowie.**

Case studies of my most recent projects can be found by visiting: **www.wojciechgabrys.com.**

EDUCATION

Multimedia Technologies & New Media

At the West Pomeranian University of Technology - Faculty of Computer Science and Information Technology

Artificial Intelligence

At the West Pomeranian University of Technology - Faculty of Computer Science and Information Technology

SKILLS AND KNOWLEDGE

In my daily work I make use of a wide range of skills, apps and technologies, including: **PHP, MySQL, Laravel, WordPress, GIT/SVN, Linux (RHCSA Certificate), JavaScript, React, Vue, HTML, CSS, Sketch, Figma, Adobe Photoshop, Adobe Illustrator, Automation - just to name a few.**

This skillset is continuously evolving to both suit the requirements of projects I currently work on and to fulfil my internal need of constant personal development.

15+ YEARS OF COMMERCIAL EXPERIENCE

- 2014 – 2020 **Freelance**
FULLSTACK DEVELOPER, PRODUCT DESIGNER
- Working directly with clients and or as a part of digital agencies to deliver tailor made websites, mobile applications and e-commerce platforms.
 - Scratching my own itch and coming up with solutions (in the form of websites and web apps that I have built from scratch in my free time, like Nowelizator) to problems that I have faced in my day to day life.
- 2017 – 2020 **TheavyCorp**
FULLSTACK DEVELOPER, PRODUCT DESIGNER, LINUX & IT SECURITY TRAINER
- Shaping, designing and programming a SaaS platform that helps to organize and manage all the knowledge within any type of organization, alongside with tools to effortlessly verify the degree of knowledge acquisition of its employees.
 - Training Polish Armed Forces (the highest ranked communications unit in Poland) in the fields of Linux and IT Security (based on ISECOM's OSSTMM methodology and self-developed workshops).
- 2015– 2017 **Nais**
PRODUCT DESIGNER, UI/UX DESIGNER, FRONTEND DEVELOPER
- Working closely with a Product Owner, I have been designing and supervising product development of a SaaS platform which helps companies in rewarding their employees with funds, that can be easily exchanged for attractive benefits using a built-in marketplace.
- 2014 – 2015 **CannCast**
PRODUCT DESIGNER, UI/UX DESIGNER
- Designing the world's first SaaS product (due to changes in US legislation) – a unique hybrid of a marketplace, social network and a CRM that collected information about current trends and connected dispensaries with manufacturers of cannabis related products.
- 2012 – 2015 **Healthily**
PRODUCT DESIGNER, FRONTEND DEVELOPER, DEVOPS, SYSOPS
- Designing and supporting software development of a series of iOS apps (targeted for the US market), which aimed to spread awareness and build positive health habits amongst their 15 – 35-year-old users.
- 2011 – 2014 **Connectmedica**
SENIOR ART DIRECTOR, HEAD OF CREATIVE
- Designing websites, native mobile apps and advertising campaigns for the largest clients from the Big Pharma industry.
 - Managing the Creative Department and supervising cooperation with the rest of the agency.
- 2008 – 2011 **Dige**
- 2007 – 2008 **Magnetic Point**
- 2006 – 2007 **Gameleons**
- 2005 – 2006 **Stoprocent**
- 2004 – 2005 **Creations**
